SomeraRoad Announces Hiring of Amit Patel, Managing Director, Head of CMBS Trading

The SomeraRoad team is excited to welcome Amit Patel to our ranks. Amit will serve as Managing Director, Head of CMBS Trading, overseeing SomeraRoad's investments in structured and securitized debt products backed by commercial real estate, primarily in the CMBS and CRE CLO sectors. Amit will be responsible for the identification, analysis and acquisition of such opportunities as well as the management of all capital markets activities at the firm.

Prior to joining SomeraRoad, Amit worked in CRE Debt Capital Markets at Bayview Asset Management, where he was responsible for overseeing capital markets activity for the Commercial Real Estate Mortgage Originations group. At Bayview, his responsibilities included the pricing, structuring and securitization of new origination CMBS loans. He also provided risk management and analysis for balance sheet loans.

Previously, Amit spent three years as Head Trader and Co-Head of Capital Markets at MC-Five Mile, a specialty-finance CMBS Lender, where he was responsible for the pricing and structuring of CMBS loans and securitizations. Amit spent the first ten years of his career at Morgan Stanley, where he held a variety of roles focused around the origination, securitization and syndication of large, higher profile, CMBS loans. He left Morgan Stanley in 2014 as an Executive Director of the Securitized Products Strats Group, working alongside the CMBS Secondary Trading Desk, where he was responsible for the credit analysis and modeling of CMBS bonds.

Please join us in welcoming Amit to the SomeraRoad team.
